Notre histoire

La storia della produzione di astucci per occhiali Fedon inizia nel 1919, a Vallesella di Cadore. Il piccolo laboratorio artigianale di Giorgio Fedon presto si trasforma ed allarga i suoi confini, fino a diventare un grande gruppo internazionale.

I numeri raccontano oggi una storia di successo nel settore della produzione di astucci e accessori legati al mondo dell'ottica e non solo. Fedon ogni anno produce 40 milioni di astucci e sviluppa nuove collezioni e proposte ad hoc per l'ampio portafoglio clienti.

The story of Fedon eyeglass case production began in 1919 in Vallesella di Cadore. Giorgio Fedon small artisanal workshop quickly transformed and expanded its boundaries becoming soon a large international group.

The numbers tell a story of success in the industry of eyewear cases and accessories. Today Fedon produces 40 million cases annually and develops new collections and tailored proposals for its extensive customer portfolio.

La production des étuis à lunettes Fedon a commencé en 1919 à Vallesella di Cadore. Le petit atelier artisanal Giorgio Fedon s'est transformé et s'est développé pour devenir un grand groupe international.

Les chiffres démontrent l'histoire de notre succès dans la production d'étuis à lunettes et d'accessoires. Fedon produit 40 millions d'étuis par an et développe des nouvelles collections et des projets sur mesure pour répondre aux nouvelles demandes de clients.

Microfibre

Microfiber cloths

Les microfibras

La cura delle lenti e degli occhiali è fondamentale per allungare la vita del prodotto, ecco perché è importante scegliere il giusto accessorio per la loro pulizia.

In Fedon abbiamo selezionato la microfibra koreana, una delle migliori sul mercato per garantire un risultato eccellente. Grazie alle microparticelle e alla fitta trama, cattura e trattiene la polvere e rimuove le impronte da lenti e schermi garantendo una pulizia ottimale delle superfici. Le nostre microfibre hanno un effetto manopescato morbido e piacevole al tatto e sono disponibili in diverse misure, grammature e colori. Sono tutte personalizzabili.

The care of lenses and glasses is essential to lengthen the life of the product, for this reason it is important to choose the right accessory for their cleaning.

At Fedon we selected the Korean microfiber cloth, one of the best on the market to guarantee an excellent cleaning result. Thanks to the micro-particles and the dense structure, it captures and holds dust and removes fingerprints from lenses and screens ensuring an optimal cleaning of the surfaces. Our microfiber cloths have a soft effect pleasant to the touch and are available in different sizes, weights and colors. They are all customizable.

Le soin apporté à vos verres de lunettes est essentiel, il est important d'utiliser le bon produit pour les nettoyer et les préserver dans le temps.

Fedon a sélectionné des microfibras provenant de Corée, qui sont parmi les meilleures du marché et qui garantissent un excellent nettoyage. La densité de la matière composée de microparticules permet d'enlever poussières et traces de doigts sur les verres et sur les écrans assurant un nettoyage optimal sur toutes les surfaces. Nos microfibras sont douces et agréables au toucher et sont disponibles dans différentes tailles, densités et coloris. Toutes sont personnalisables.

Finitions

Tipologie di taglio

Orlo cucito per un aspetto più classico, taglio dritto per un'eleganza minimal, oppure a cappe per un effetto più decorativo. Le nostre microfibre sono personalizzabili non solo nelle stampe e nelle misure, ma anche nelle finiture di taglio.

Types of finishings

Stitched hem for a more classic look, straight cut for minimal elegance, or zig zag cut for a more decorative effect. Our microfiber cloths are customizable not only on the printing and sizes, but also in the edges finishing.

Types de coupe

Ourlet cousu pour un aspect plus classique, coupe droite pour une élégance minimaliste ou à festons pour un effet plus décoratif. Nos microfibres sont personnalisables non seulement en termes d'impressions et de dimensions, mais aussi dans les finitions de coupe.

Reading glasses are an essential accessory for anyone experiencing difficulties with close-up vision. They provide immediate relief when reading books, newspapers, or screens thanks to the lightweight frames and lenses suitable for various corrections.

Available in a wide range of styles and colors, reading glasses not only enhance vision but also become a personalized style element.

Les lunettes de lecture sont un accessoire indispensable pour toute personne rencontrant des difficultés de vision de près. Elles apportent un confort immédiat lors de la lecture de livres, de journaux ou d'écrans grâce à leurs montures légères et à leurs verres disponibles dans plusieurs dioptries.

Disponibles dans une large gamme de styles et de couleurs, les lunettes de lecture améliorent non seulement la vision mais deviennent également un élément de style personnalisé.
