Mission

Dall'astuccio per occhiali alla borsa da viaggio...
dal 1919, con passione italiana, nel rispetto delle persone e
dell'ambiente, pensiamo e produciamo accessori unici e senza tempo.

From Eyeglass cases to travel bags. Since 1919, with Italian passion, we design and manufacture timeless accessories, in respect of people and environment.

De l'étui à lunettes à notre ligne de maroquinerie. Depuis 1919, avec la passion Italienne, nous créons et fabriquons des accessoires intemporels dans le respect des gens et de l'environnement.

Storia

History

Histoire

La storia della produzione di astucci per occhiali Fedon inizia nel 1919, a Vallesella di Cadore. Il piccolo laboratorio artigianale di Giorgio Fedon presto si trasforma ed allarga i suoi confini, fino a diventare un grande gruppo internazionale.

I numeri raccontano oggi una storia di successo nel settore della produzione di astucci e accessori: Fedon ha prodotto 500 milioni di astucci negli ultimi 10 anni e nello sviluppo prodotto, solo lo scorso anno, ha gestito 784 progetti (pari a circa 3.500 campioni realizzati).

The production of Fedon eyeglass cases began in 1919, in Vallesella di Cadore. Giorgio Fedon's small artisanal workshop was soon transformed and expanded its reach, becoming a large international group. The numbers tell the story of our success in the production of cases and accessories: Fedon has produced 500 million cases in the last 10 years, and with regard to product development, last year, it managed 784 projects (with about 3,500 samples made).

La production des étuis à lunettes Fedon a commencé en 1919 à Vallesella di Cadore. Le petit atelier artisanal Giorgio Fedon s'est transformé et s'est développé pour devenir un grand groupe international. Les chiffres démontrent l'histoire de notre succès dans la production d'étuis à lunettes et d'accessoires. Fedon a produit 500 millions d'étuis dans les 10 dernières années et a géré 784 projets de développement produits dans l'année 2017 (avec environ 3500 échantillons qui ont été produits).

Perché scegliere Fedon?

Why Fedon?

Pourquoi choisir Fedon?

Ad ogni progetto viene data la massima importanza e il più alto valore aggiunto, grazie alla manodopera e all'esperienza di personale qualificato ed esperto del settore.

Each project is given the utmost importance and the highest added value, thanks to the expertise and the experience of qualified personnel.

Chaque projet bénéficie d'une attention particulière et d'une valeur ajoutée grâce au savoir-faire et à l'expérience du personnel qualifié.

L'assistenza dedicata è garantita attraverso la visita diretta del nostro team di agenti esperti del settore e del nostro staff di customer care, a disposizione del cliente per ordini, informazioni e consulenza.

The dedicated assistance is guaranteed through the direct visit of our team of experienced agents and of our customer care staff, at customer's disposal for orders, information and advice.

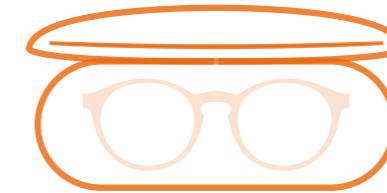

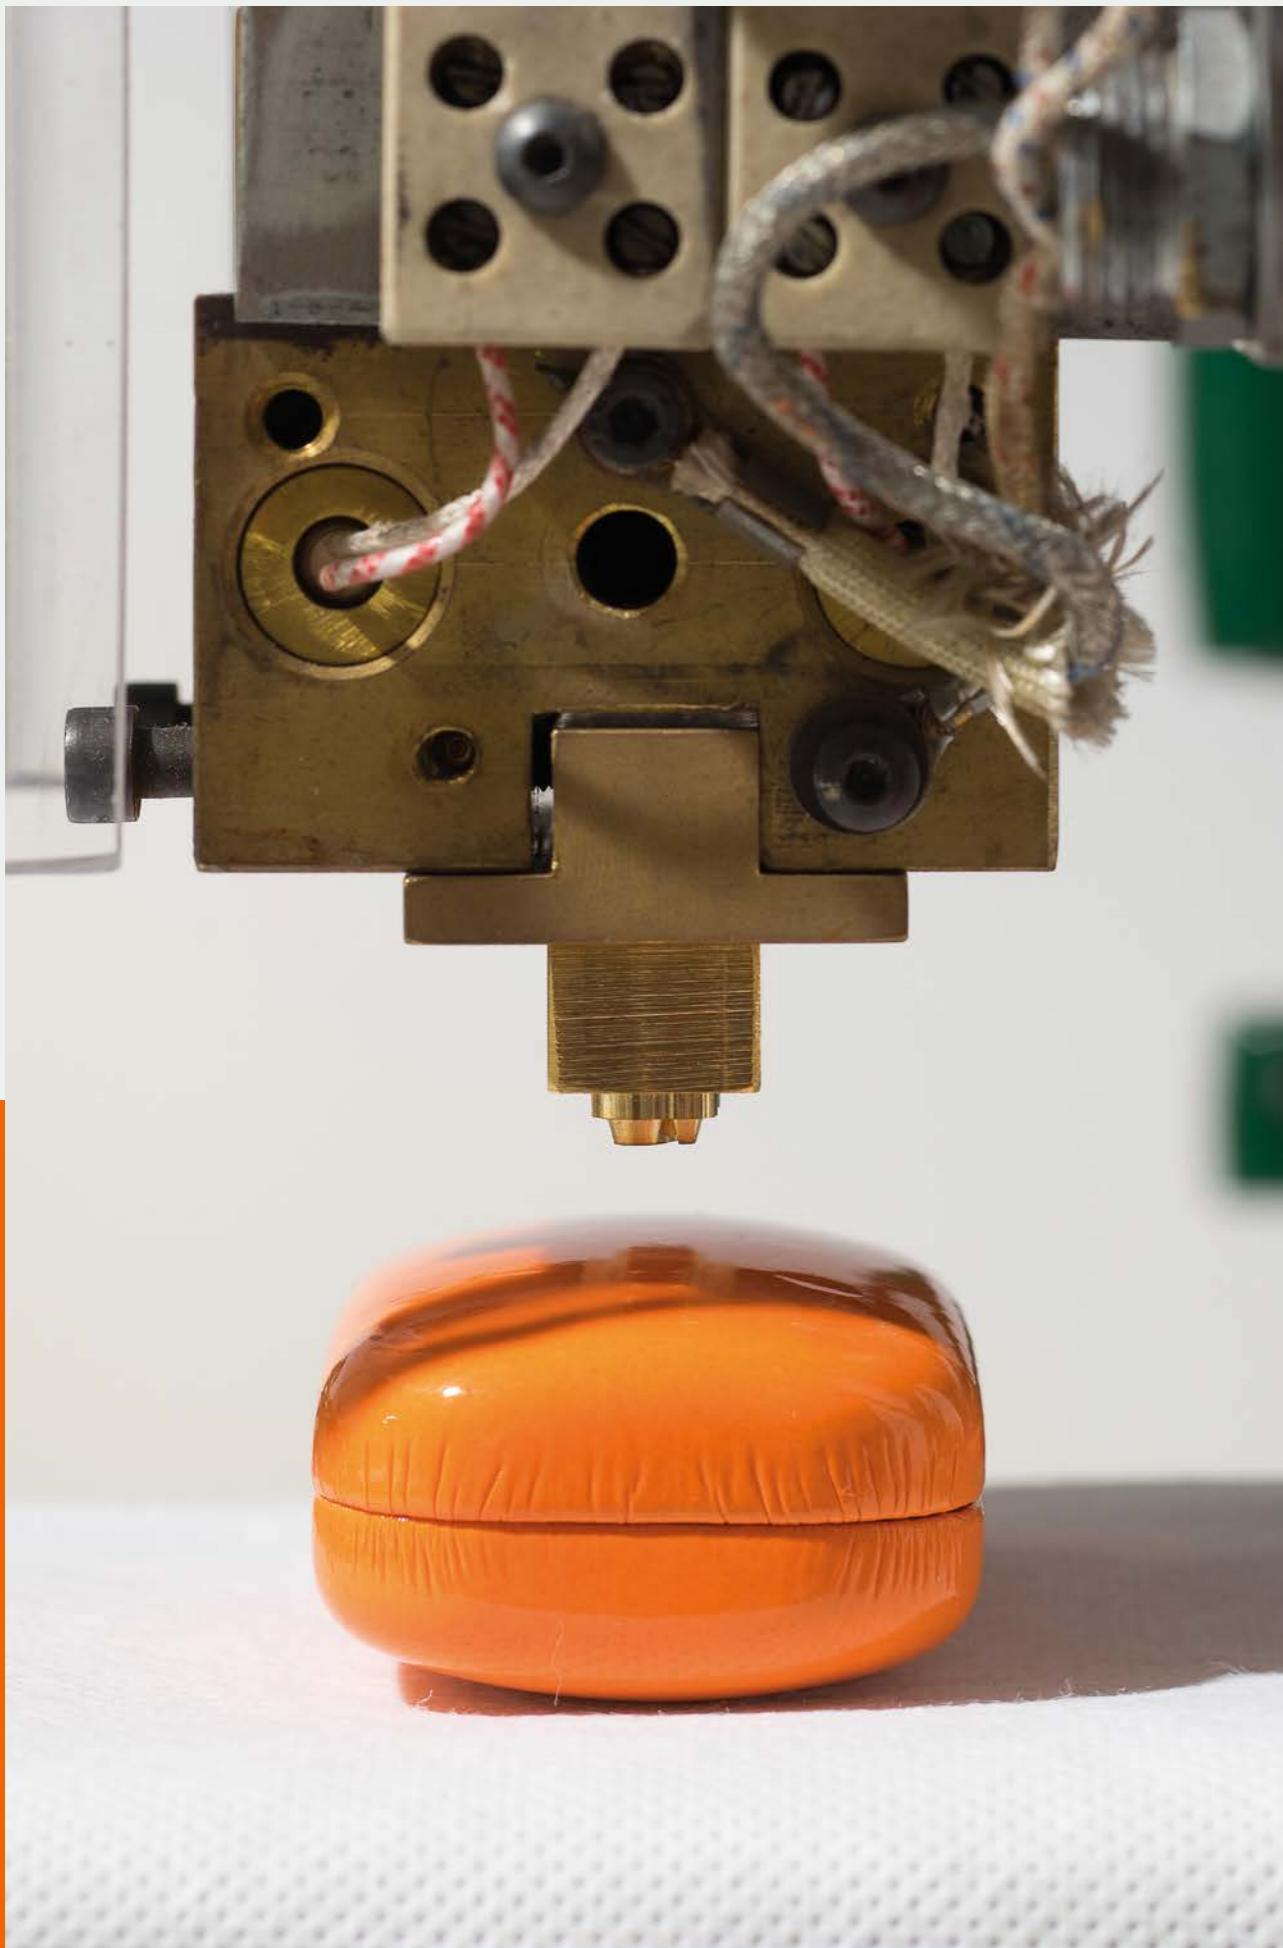

Nous dédions une assistance particulière à nos clients à travers des équipes de représentants expérimentées disponibles à visiter la clientèle pour prendre vos commandes, pour donner des informations ou des conseils.

Un sistema di riassortimento veloce e la praticità di ordinare online oppure attraverso un servizio di assistenza telefonica chiamando il numero verde dedicato.

Each customer is offered a quick delivery system and the convenience of ordering online or through a telephone assistance service by calling the dedicated toll-free number.

Nous proposons à chaque client une livraison rapide en France métropolitaine de 3 à 4 jours sur les produits en stock et nous donnons la possibilité de commander en ligne ou de contacter notre bureau commercial.

Un accessorio che lascia il segno

An accessory that leaves the mark

L'accessoire qui marque son empreinte

Un astuccio, una microfibra o un accessorio personalizzato, sono oggetti unici e possono diventare il miglior mezzo di promozione per il negozio di ottica. Con oltre 200 astucci a catalogo, Fedon è in grado di soddisfare qualunque richiesta in termini di forme, colori e materiali. La qualità dei nostri astucci è certificata e strettamente controllata, grazie alla proprietà degli stabilimenti in cui ciascun articolo è realizzato.

A glass case, a microfiber cloth, a personalized accessory, are unique objects and they may become the best promotion tool for an optical shop. With over 200 cases in the catalogue Fedon satisfies every customer request in terms of shapes, colors and materials. The quality of our glass cases is certified and highly controlled, thanks to the ownership of the plants where the production is held.

Les étuis à lunette, les microfibres et accessoires personnalisés sont des objets uniques et ils peuvent devenir le meilleur outil promotionnel pour le magasin d'optique. Avec plus de 200 références d'étuis dans le catalogue Fedon, nous répondons aux demandes de nos clients en terme de formes, de couleurs et de matériaux. La qualité de nos étuis à lunette est certifiée et hautement contrôlée, la reconnaissance de nos propres usines nous permet un contrôle de production.

Astucci Eco-Friendly

La nuova collezione di astucci ecologici CASE2green dedicata agli ottici. Astucci che mirano alla riduzione del loro impatto ambientale attraverso l'utilizzo di materiali e lavorazioni attenti all'ambiente e alle persone. CASE2green è un'etichetta assegnata agli astucci per occhiali che rispondono a determinati requisiti relativamente ai materiali impiegati, ai processi di lavorazione e al trasporto.

ECO-FRIENDLY CASES

The new CASE2green collection of ecological cases dedicated to opticians. Cases that aim to reduce their environmental impact through the use of materials and processes that are attentive to the environment and people. CASE2green is a label assigned to eyeglass cases that meet certain requirements regarding the materials used, manufacturing processes and transport.

LES ETUIS ECO-FRIENDLY

La nouvelle collection d'étuis écologiques CASE2green est dédiée aux opticiens. Des étuis qui ont pour but de réduire l' impact sur l'environnement par rapport aux choix des matériaux et des processus dans le respect de la nature et des personnes. CASE2green est un logo attribué aux étuis à lunettes qui exigent des matériaux spécifiques avec un processus de production et de transport particuliers.

ECO-ELASTANE

IL PORTAACCHIALLY NATO DA UNA RETE DA PESCA

Gli astucci CASE2green in Eco-Elastane nascono dal riciclo delle reti da pesca recuperate in mare e da tessuti a fine vita.

L'interno degli astucci della collezione ECO sono tutti realizzati in materiale riciclato al 100% da plastica PET.

THE EYEWEAR CASE MADE FROM A FISHING NET

CASE2green cases in Eco-Elastane are made from a recycled material derived from fishing nets recovered by the sea and from end-of-life fabrics.

The interior of this collection is made from 100% recycled PET plastic material.

LES ETUIS A LUNETTES ISSUS DES FILETS DE PECHE RECYCLÉS

Les étuis CASE2GREEN en Eco Elastane sont issus des filets de pêche recyclés qui sont récupérés en mer car hors d'usage.

L'intérieur des étuis est en matière PET issue à 100 % de matières plastique recyclées.

LORIS-CAL (4) elastane

Astuccio semirigido con chiusura a calamita rivestito in materiale riciclato Eco-Elastane.

Astucci Morbidi

Astucci in pelle o similpelle, classici e salva spazio. Ideali per gli occhiali da lettura e per gli occhiali di scorta, il minimo ingombro per un astuccio sempre a portata di taschino.
La forma degli astucci morbidi permette un'ampia scelta di personalizzazione, dal più semplice logo, fino alla stampa di una fotografia a colori.

SOFT CASES

Leather or plastic cases with classic shapes and space saver. They are ideal for reading glasses or for spare ones, a case that occupies minimum room and that is always within reach of a pocket.
The shape of soft cases allows a wide range of printing, from the simplest logo to the reproduction of a colored picture.

LES ÉTUIS SOUPLES

En cuir ou en simili, des étuis avec des formes classiques peu encombrants. Ils sont idéals pour les lunettes de lecture, un étui qui utilise un minimum d'espace, qui peut être mis facilement en poche.
Ce type d'étui permet d'utiliser une large gamme de type d'impression, du marquage une couleur à la reproduction d'image.

Microfibre

Disponibili in varie misure e colori. Grazie alle sue micro particelle, la microfibra Fedon cattura e trattiene la polvere garantendo una pulizia ottimale delle lenti e in più è un ottimo strumento di comunicazione a disposizione del punto vendita. La personalizzazione di questi prodotti è altissima, grazie alla stampa in quadricromia è infatti possibile stampare su di essi qualsiasi disegno o immagine, senza limite di colori.

MICROFIBER CLOTH

Available in various size and colors. Thanks to its micro particles, Fedon microfiber cloth captures and retains dust ensuring optimal lens cleaning and in addition, it is an excellent communication tool available for the point of sale. The customization of these products is very high, thanks to the four-color printing it is possible to print any design or image, without color limitation.

LES MICROFIBRES

Disponibles en différentes tailles et couleurs. Grâce à ses microparticules, les microfibres Fedon captent et retiennent la poussière en assurant un nettoyage optimal des verres et autres supports. C'est un excellent support de communication pour tous les points de vente. La personnalisation de ces produits est très variée grâce à l'impression quadrichromie qui permet de créer et d'imprimer tous types d'images sans aucune limite de couleurs.

Occhiali da Lettura

Colorati e trendy, gli occhiali da lettura Fedon mettono a fuoco la tua giornata. Una semplice consultazione dall'ottico, la ricerca della gradazione più adatta e il problema è risolto, con stile.

Rettangolari o rotondi, grandi o piccoli gli occhiali Fedon calzano al meglio ogni viso. Chi ha detto che l'occhiale da lettura non fa moda? Forme attuali e materiali flessibili garantiscono un look da "fashion reader"!

READING GLASSES

Colorful and trendy, Fedon ready-made reading glasses focus on your day. A simple consultation with the optician, the search for the most suitable gradation and the problem is solved, with style.

Round or rectangular, large or small, Fedon glasses fit every face. Who said that reading glasses are not fashionable? Current shapes and flexible materials guarantee a "fashion reader" look!

LUNETTES LOUPES

Colorées et à la mode, les lunettes loupes Fedon prêtes à être utilisées pour la journée. Une simple visite avec l'opticien pour trouver la meilleure correction et le problème est résolu avec un certain style.

Rondes ou rectangulaires, grandes ou petites, les lunettes Fedon s'adaptent à chaque visage. Qui a dit que les lunettes ne sont pas modernes? des formes actuels et polyvalentes garantissent un look "fashion reader".

Espositori

Gli accessori Fedon trovano spazio nel punto vendita dell'Ottico anche grazie agli espositori dedicati.

Fedon propone infatti diverse soluzioni espositive come totem da terra multipiano, display da banco di diverse forme e colori, tutti pensati per valorizzare e facilitare il momento d'acquisto.

Un'esposizione curata e ben accessibile al cliente è la chiave giusta per colpire nel segno.

DISPLAYS

Fedon accessories are visible in the Optician's point of sale also thanks to the dedicated displays. In fact, Fedon offers different solutions such as multi-layer totems, counter displays of different shapes and colors, all designed to enhance and facilitate the time of purchase.

An accurate and accessible exhibition for the customer is the right key to hit the mark.

PRÉSENTOIRES

Les accessoires Fedon peuvent être exposés dans le point de vente de l'opticien grâce à des présentoirs spécifiques.

Fedon propose différentes solutions d'expositions produits tel qu'un présentoir sur pied multi produits ou des présentoirs de comptoirs permettant d'exposer différentes formes et couleurs d'étuis. Tous nos modèles ont été créés pour renforcer la mise en avant des produits et pour faciliter l'achat du client.

Une exposition efficace et accessible est le point clé pour toucher vos clients.

Le personalizzazioni

The customizations

La personalisation

SERIGRAFIA

La stampa serigrafica o serigrafia è una tecnica di stampa che avviene per mezzo del deposito di inchiostro su un telaio appositamente creato per la riproduzione del soggetto. I colori utilizzati da Fedon sono vivi, resistenti e atossici.

SILK SCREEN PRINTING

Silk-screen printing is a printing technique that takes place by depositing ink on a frame specially created for the reproduction of the subject. The colors used by Fedon are vibrant, resistant and non-toxic.

LA SÉRIGRAPHIE

L'impression en sérigraphie est une technique d'impression qui consiste à déposer de l'encre sur un cadre spécialement créé pour la reproduction de sujet. Les couleurs utilisées par Fedon sont vives, résistantes et non toxiques.

PUNZONATURA

La punzonatura è un tipo di stampa a pressione che permette di riprodurre sul prodotto un disegno in bassorilievo nobilitando il materiale su cui viene impressa. La punzonatura si rivela particolarmente adatta a dare risalto a stemmi e loghi.

EMBOSSING

Embossing is a type of pressure printing that allows to reproduce on the product a simple drawing enhancing the material on which it is embossed. This method proves to be particularly suitable for emphasizing coats of arms and logos.

LE FRAPPÉ

Le frappé est un type d'impression par pression qui permet de reproduire sur le produit un simple dessin qui est embossé et qui anoblit le matériau. Cette méthode est particulièrement adaptée à la mise en valeur des armoiries et des logos.

TAMPOGRAFIA

La tampografia è una stampa indiretta, che permette di imprimere sopra a qualsiasi tipo di oggetto, o quasi, scritte, disegni, loghi e decorazioni, incluse le superfici concave, convesse o le forme irregolari.

PAD PRINTING

Pad printing is an indirect printing method, which allows printing on almost any type of object, letters, drawings, logos and decorations can be printed also on concave, convex or irregular shapes.

LA TAMPOGRAPHIE

L'impression en tampographie est un procédé d'impression indirecte qui permet d'imprimer sur tous types d'objets ou presque, lettres, dessins, logos et décosations y compris des formes concaves, convexes ou irrégulières.

QUADRICROMIA

La stampa in quadricromia è una stampa indiretta ed è la tecnica più comunemente usata per la riproduzione dettagliata di file di immagini e fotografici su superfici piatte.

FOUR COLOUR PRINTING

The four-color printing is an indirect print and is the most commonly used technique for the detailed reproduction of image and photographic files on flat surfaces.

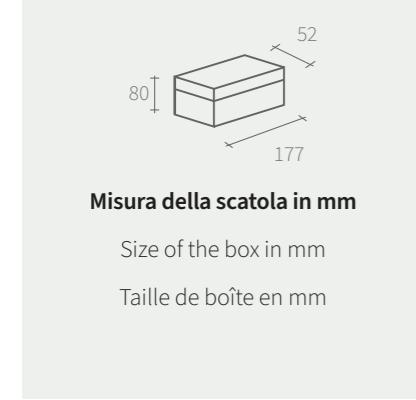

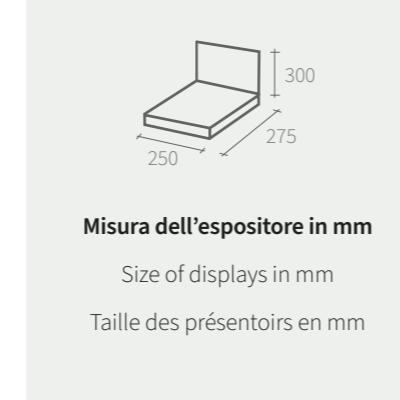

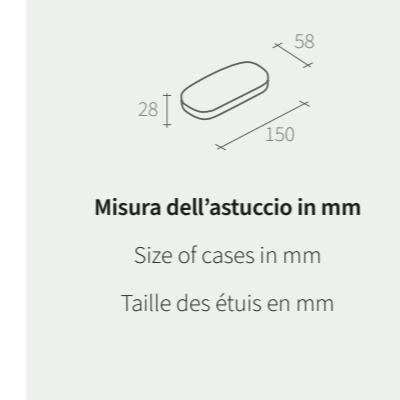

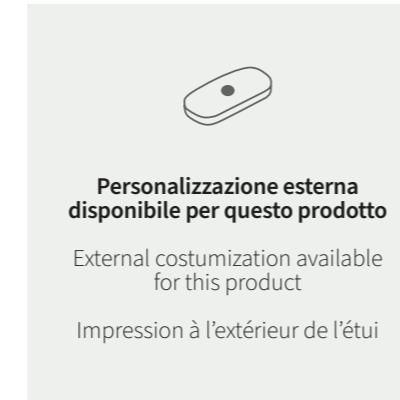

QUADRICHROMIE

L'impression quadrichromie est un type d'impression indirekte et qui est principalement utilisée pour la reproduction d'images et de photographies sur des surfaces planes.
